ABSTRACT

Each year, the 28 Florida community colleges are required to produce Enrollment and Completion Headcount Reports (AA-1 series reports). The purpose of these reports is to provide an accurate accounting of program enrollments and completions, and enrollment figures of students receiving other instructional services at Santa Fe Community College (SFCC), Florida. This report summarizes the data contained in the AA-1 series report for SFCC for 1989-90 and previous years. Section 1 contains a college enrollment analysis, providing data on total unduplicated headcount for the previous 5 years, program enrollment history by degree and certificate, total 1989-90 college enrollment by race and gender, program enrollments by race and gender, and a 5-year history of program enrollments by race and gender. Section 2 analyzes program completions, presenting data on 1989-90 program completion rates by race and gender according to the type of degree or certificate awarded. This section also contains a 5-year history of program enrollments and completions for all students and by race and gender. Finally, section 3 offers a 3-year history of enrollments and completions by program, general degree transfer program enrollments by race and gender, and completions by field of study. A glossary of frequently used terms is included. (JMC)

INTRODUCTION

Each year, the 28 Florida community colleges are required to produce Enrollment and Completion Headcount Reports (AA-1 series). The purpose of this series of reports is to provide an accurate accounting of program enrollments and completions and enrollment figures of students receiving other instructional services at Santa Fe Community College. The data collected for these reports is the basis for the Annual Enrollment and Completion Headcount Report.

The 1989-90 Annual Enrollment and Completion Headcount Report summarizes the data contained in the AA-1 series of reports. The summary is divided into three sections. Section one, the College Enrollment Analysis, presents the 1989-90 program enrollments and all other areas of enrollments combined by selected groups. The section also includes a five-year historical analysis of the total unduplicated headcount of all students served by the college. Section two, the Program Completion Analysis, lists the 1989-90 program completion rates by race and gender according to the type degree or certificate awarded. The section also contains a five year history of program enrollments and completions by selected groups. Section three presents a three year history of individual program enrollments and completions by major areas of study.

The information generated by the AA-1 series will be used to assist in completing various federal and state reports. In addition, the data may also be used by those involved with program management to predict trends for planning and program review.

A glossary of frequently used terms is included at the end of the report.

College Enrollment Analysis
Section One

TABLE (1) Total Unduplicated Headcount History
(Number of Students Served at SFCC)

The data in Table One indicate the total number of students served annually by the College (an unduplicated headcount). An analysis of the data shows a 33.3% increase in enrollment over the unduplicated headcount five years earlier (1985-86). An additional 1,995 students attended Santa Fe in 1989-90 over the previous year. The College experienced growth each year with an average growth rate of 7.18% for the past five consecutive years.

	1985-86	1986-87	1987-88	1988-89	1989-90
Total Unduplicated Headcount (number of students served by SFCC)	21,507	22,252	23,893	26,609	[illegible]
Percent of Change From Previous Year	6.24%	3.46%	7.37%	11.37%	7.50%

TABLE (2) Program Enrollment History by Degree and Certificate

Table Two contains a five year history of unduplicated program enrollments. The number of students enrolled in a program of study increased by 3,586 (37.98%) from 1985–86 to 1989–90. Associate of Arts (A.A.) Degree Programs increased by 2,349 students (32.02%) during this period. The decrease in Associate of Science (A.S.) Degree enrollments in 1986–87 was due to changes in program selection procedure which more accurately reflect the student's actual intent of study. The increase in Technical Certificate Program enrollments for 1987–88 was due primarily to growth in Business Programs. Technical Certificate Programs experienced a decrease in enrollment in 1989–90 due to program leveling. As a result of the leveling process, several programs were reclassified as Post Secondary Adult Vocational Programs which offer Certificates of Training. This accounted for the 19.10% increase in that area.

*Decrease in enrollment due to creation and placement of students in First-time Freshman Enrollment Category.

TABLE (3) Other Enrollment History (All Enrollments other than Program)

Table three contains an unduplicated headcount, by area, of all enrollments, other than program enrollments for the past five years. Total Other Enrollments combined increased by 3,511 students (29.10%) during this period while Avocational (Community Education) Enrollments increased 46.30%. Funding for Citizenship courses was discontinued by the Legislature in 1987-88.

TABLE (4) Total College Enrollment by Race for 1989-90

Table four lists the enrollment for 1989-90, by race, for all programs, other enrollments and total College enrollment. A review of the data indicates that Blacks comprised 8.39% of the program enrollment and 6.87% of the total College enrollment. Black program enrollment increased 2.82% over the previous year while Other Black enrollment decreased 9.28%. Blacks and Other Minorities combined accounted for 14.22% of the Total College enrollment.

TABLE (7) Program Enrollment by Race for 1989-90.

Table seven lists the enrollment for 1989-90, by race, for type of degree offered and for total Program enrollment. A review of the data indicates that all minorities combined comprised 17.68% of all program enrollments. Total program enrollment increased 7.93% over the previous year. Enrollment patterns remained approximately the same as those of 1988-89. Black enrollment comprised 11.27% of all vocational programs and 7.39% of the Associate of Arts Degree programs.

TABLE (10) Associate of Arts and Associate of Science Degree Completion History

Table Ten contains a five-year history of all Associate of Arts (A.A.) and Associate of Science (A.S.) Degree program completers. An analysis of the data indicates an overall increase in the total number of degree completers for each of the past five consecutive years. The total number of degrees awarded in 1989-90 increased by 31.65% over the total number of degrees awarded in 1985-86. The number of A.A. Degree program completers in 1989-90 is 56.44% higher than the number of completers reported in 1985-86. After four years of declining completion rates, the number of A.S. Degree completers increased by 21.78% in 1989-90.

TABLE (11) Technical Certificate and Certificate of Training Completion History

Table Eleven contains a five-year history of Technical Certificate and Certificate of Training program completions. The total number of certificates reported in 1989-90 is approximately 79% higher than the number of certificates reported in 1985-86. The increase is due mainly to improved data collection procedures which resulted in an overall increase in the total number of certificate recipients reported. The number of certificate completers varies from year-to-year as some certificate programs are offered only on demand.

TABLE (12) 1989-90 Program Completions by Race

Table Twelve contains the number and percent of program completers, by race, for 1989-90. An analysis of the data indicates that 13.58% of the total program completers were minorities. Blacks comprised 6.21% of all program completers, 15.69% of Technical and Certificate of Training program completers and 3.77% of the Associate of Arts and Associate of Science graduates. A total of 67.59% of the 108 Black program completions were in the Vocational area. Due to variations in the number of hours for each program and the fact that some programs are offered only on demand, no trends can be noted in the data.

Table Thirteen contains the number and percent of program completers, by gender, for 1989-90. The data indicate that females comprised 57.42% of the total program completers and 64.59% of the students completing a Vocational program. A total of 291 (73.30%) of all Associate of Science Degree recipients were female. The ratio of female to male Associate of Arts completions remained approximately the same as the previous year.

TABLE (15) 1989-90 Program Enrollments and Completions by Gender

Table Fifteen contains the number of students, by gender, enrolled in and completing a degree or certificate program in 1989-90. An analysis of the data indicates that the total female program enrollment and completion rates are higher than the total male enrollment and completion rates. Females comprised 65.09% of the Associate of Science (A.S.) enrollments and 73.30% of the A.S. program completions. Associate of Arts enrollment and completion rates for males and females remained approximately the same as the previous year.

TABLE (16) Five-year Program Enrollment and Completion History by Race

Table Sixteen contains a five-year history of program enrollments and completions by race. A review of the data indicates that overall College program enrollment increased 37.98% over the past five years. Black enrollment increased by 26.80% during this period. The percent of Black and Other Minority completers combined decreased from 16.85% in the 1988-89 to 13.58% in 1989-90. The College experienced an average annual completions rate of 1,448 students (approximately 13%) during this five-year period.

GLOSSARY OF TERMS

Apprenticeship - Students enrolled through a formal apprenticeship program.

Associate in Arts - An award certifying the completion of a two-year lower division undergraduate program of study which is applicable to a bachelors or advanced degree.

Associate in Science Degree - An award certifying the completion of a two-year technical program of study. In some cases students completing these programs transfer to a university to complete a higher level degree in the field. Therefore, the AS degree is not necessarily a terminal degree.

Audit - A credit course taken not-for-credit. No credit is granted when the course is completed nor can any be given at a future date.

Avocational (Recreational and Leisure Time Instruction) - This cluster includes courses designed to provide non-credit recreational and leisure time instruction to members of the community.

Certificate of Training - An award certifying the completion of a vocational program of study which is one term (semester) or less of full-time study.

General Freshman - A general freshman is a person who intends to achieve a degree or certificate but has not satisfied the additional criteria required by the college.

High School - Refers to persons declared by the institution to be at the 11th and 12th grade levels who are enrolled in programs for which credit is given toward a high school diploma.

Other Minorities - Includes Asian or Pacific Islander; American Indian/Alaskan Native; Hispanic; Non-residential Alien.

Other Personal Objectives - This classification would be persons enrolled in credit or non-credit courses to satisfy their personal objectives. The enrollments would not be employment related. These persons have no intention of completing a degree or certificate program.

Previous Degree - A student who has completed a program of study and is enrolled for other personal objectives.

Program - One or more structured learning experiences designed to accomplish a predetermined objective or set of allied objectives, such as preparation for advanced study,

qualification for an occupation or range of occupations, or solely to increase knowledge or understanding.

Program Completer - A program completer is a student who has completed the requirements for a degree or other formal award, whether or not the student has applied for graduation.

Supplemental - Courses that are organized for the purpose of upgrading persons who are currently or have been previously employed in an occupational field. This does not include courses which are organized as a unit of a preparatory program of studies.

Technical Certificate - An award certifying the completion of technical programs of study consisting principally of the prescribed specialized courses in the program area. These are programs which usually consist of one academic year of full-time study.
